## Front End Developer

✉ ziad.n.mostafa@gmail.com ☎ 01280226462 📍 Alexandria 🔗 linkedin 🐙 github

### PROFILE

Front-End Developer with 4+ years of experience delivering scalable, responsive, and accessible web applications using React.js, Next.js, and TypeScript. Proficient in UI/UX design, RESTful API integration, and state management (Redux Toolkit, Context API). Skilled in reusable component development, performance optimization, and cross-browser compatibility, with a strong focus on clean code and front-end architecture.

### SKILLS

**Languages:** HTML, CSS, JavaScript (ES6+), TypeScript | **Frameworks & Libraries:** React.js, Next.js, Redux Toolkit, Context API, Framer Motion, Formik, Yup, i18next, React Router Dom | **Styling:** Tailwind CSS, Material UI, Bootstrap, shadcn ui, SASS | **Tools:** Git & GitHub, Postman, Figma | **API & Data:** REST APIs, Axios, Fetch, React Query, xmlhttprequest | **Others:** Responsive Design, OOP, JSON-Serve

### PROFESSIONAL EXPERIENCE

#### Front-End Developer – Akwad Company – Egypt | June 2024 – June 2025

02/2024

Developed and maintained front-end for an enterprise ERP using React.js, Next.js, TypeScript, Tailwind CSS, and Material UI. Built responsive, accessible, and scalable interfaces optimized for performance and cross-browser compatibility. Created reusable UI components, improved styling architecture, and ensured design consistency across the product. Collaborated with cross-functional teams—including backend engineers, designers, and product managers—to enhance user experience, streamline UI flows, improve system integration, and increase usability and adoption across departments.

Alexandria, Egypt

#### Freelance Front-End Developer Remote | 2023

10/2023

Delivered responsive, high-performance web applications for diverse clients using React.js, TypeScript, and Tailwind CSS. Built reusable UI components, blended RESTful APIs and third-party libraries, and enhanced for cross-browser compatibility, accessibility, and SEO. Collaborated with clients to gather requirements and deliver clean, maintainable code following modern front-end standards and Agile workflows.

#### Front-End Development Intern — Route Academy | 2023

02/2023

Completed an intensive front-end development internship at Route Academy, where I delivered real-world project implementations, strengthened proficiency in modern web technologies, and collaborated within a professionally structured environment emphasizing engineering best practices, code quality, and industry-standard workflows.

## PROJECTS

---

### Shopping site

2025

Implemented a fully responsive, real-time-ready e-commerce interface with RTL/LTR and Dark Mode support. Integrated REST APIs for live authentication, data sync, and media handling. provided dynamic dashboards, instant messaging, and scalable architecture optimized for real-time performance across all devices.

- **Technologies Used :** React.js | Material UI | Context | React-Router-Dom
- [Live Demo](#)  | [GitHub](#) 

### E-Commerce Platform – Modern Online Shopping Website

08/2024

Developed a fully responsive and modern e-commerce platform delivering a seamless and engaging shopping experience. executed product browsing, cart management, and intuitive navigation with a clean, minimalist UI improved for performance, accessibility, and cross-device compatibility.

- **Technologies Used :** React.js | Tailwind CSS | Formik | Redux Toolkit (for state management) | React Query (for data fetching) | Framer Motion | react-i18next
- [Live Demo](#)  | [GitHub](#) 

### Media Website

04/2025

Built a full-featured social media platform enabling user registration, post creation with image upload, likes, and real-time comments. Built with Next.js and Material UI, featuring dynamic routing, form validation (Formik), and responsive design. enforced secure authentication, user profile management, and an interactive feed. Focused on clean UI/UX, performance optimization, and cross-device compatibility.

- **Technologies Used :** Next.js | Material UI | Formik (for form handling) | NextRouting | AXIOS | Redux Toolkit | Context | react-i18next
- [Live Demo](#)  | [GitHub](#) 

### Meals-App

11/2024

improved a user-friendly, responsive meal application enabling users to explore and search recipes by ingredients, dietary preferences, and categories. applied clean UI design with intuitive navigation, ensuring an engaging browsing experience. incorporated API data fetching for real-time meal information and streamlined for performance and cross-device compatibility.

- **Technologies Used:** React.js | SASS | Tailwind CSS | React Router (for navigation) | API Integration (for fetching meal data)
- [Live Demo](#)  | [GitHub](#) 

## EDUCATION

---

### Business Information Systems (BIS)

Alexandria

- (BIS) Bachelor of Business Information Systems
- Total GPA : 3.60 from 4

### Front-End Development Diploma, Route Academy

- Front-End Development Diploma In Route Academy
